

**2018 Australian
Antarctic Arts Fellowship**

Leading TV screenwriter Jane Allen (Cleverman, Janet King, Wentworth, Love Child) and award-winning novelist Dr Jesse Blackadder (Sixty Seconds, Chasing the Light) were jointly awarded the **2018 Australian Antarctic Fellowship**.

During their three month trip to Antarctica they researched, and wrote a TV series, *The A- Factor*, which will delve into the daily life of expeditioners at an Antarctic research station.

Through our ongoing partnership with the Australian Antarctic Division, ANAT provides the successful Arts Fellow with financial support to assist towards additional expenses, such as medical screening, domestic air travel and accommodation costs in Hobart before and after their expedition.
